Friday, May 11. 1722.

Barcelona, April 24.

FOUR Ships of War lately fitted out here, sailed on the 22d Instant for Cadix. This Week 300 Workmen were shipped off for the Island of Majorca, to be employed about the Fortifications of the Capital of that Island, as likewise in the Places of Palomera and Alcudia. The Number of French Troops increase in Rouffillon.

Genoa, April 25. The Barbary Corsairs continue to cruise off of the Coasts of Sicily, and very much disturb the Commerce of those Parts. Letters from Leghorn give an Account, that two Marseilles Tartans that scrupled to sail away from the Port of Leghorn, were at last forced to bear off by the Artillery of that Place; and that the Leghorn Merchants have suffered a considerable Loss by a rich Portuguese Ship being taken by the Pyrates.

Warsaw, April 26. The Expectation of the King's coming hither begins to revive, it being now reported that his Majesty will in a few Weeks set out for this Kingdom: Several of the Nobility are already arrived, and likewise several of the King's Household Officers. Advices from Leopold confirm, that M. Popielus was set out for Constantinople, in Quality of Envoy Extraordinary from the King of Poland. The Continuance of the Muscovite Troops in the Neighbourhood of these Parts gives us great Disquietude, 'tis said nevertheless, that an Alliance is formed between the Emperour and his Polish Majesty, in order to oppose all Attempts that might prejudice this Kingdom.

Vienna, May 2. The 1st Instant being the Festival of St. Philip and St. Jacob, the Pope's Nuncio and the Ambassador of Venice had the Honour of Dining at the same Table with his Imperial Majesty; the same Day an Express was sent to Cardinal Althan at Rome, with his Appointment to the Viceroyalty of Naples. A Turkish Bark arrived here some Days ago, laden with Goods from the Levant; this Bark passed the Sea of Marmora into the Black Sea, and from thence into the Danube: By this means we begin to taste the Fruits of the Peace concluded at Passarowitz.

Hambourg, May 12. A Muscovite Courier passing through Dantzick on his Way to Holland, with Dispatches for Prince Kurakin, reports, that the Czar has caused to be transported on Sledges, Frigates of 16 Guns in or-

der to be made use of in the Caspian Sea, and that a vast Number of Workmen were employed in making the Roads even as far as Astracan. The Czar's Design being to settle an Eastern Commerce, 'tis likely the Cuban Tartars may now pay dear for their Insolencies committed on their Muscovite Neighbours, of whom those Tartars some time ago killed several Thousands; and 'tis said the Czar intends now to subdue them intirely, and to cause Forts to be erected at proper Distances throughout their Country. This Courier adds, that the Czar would in this Month begin his Journey towards the Caspian Sea; that the Troops had likewise all received Orders to march thither; and that a new Supply of 300 Seamen were ordered to be sent to Astracan, so that 'tis taken for granted no Enterprize will be undertaken on the Czar's Part by his Troops near the German Frontiers during the Expedition from Astracan, nor that any Master will be transacted till next Year, in consequence of the rumoured Alliance between the Czar and France and Spain. Letters from Petersburg say, the Czar's Orders were arrived there for raising as many Seamen as possible; in order to supply the Places of those sent to Moscow. The last Accounts from Moscow continue the Report of the Czar's going very soon for Casan, and that he designs to travel thither but with few Attendants.

Brussels, May 9. The Marquess de Prié has caused to be presented to M. Pesters, their High Mightinesses Resident, the Passports and other necessary Orders to the Governours and Commandants of Places garrisoned by Imperial Troops in order to their allowing Passage to the Dutch Troops who are marching to relieve their Garrisons in the Barrier Towns. The National Troops of this Country are likewise to change their respective Quarters, but the Regulation for it is not settled. The Prince of Holstein-Beck, Governour of Ipres, is gone through this City on his Journey to Aix la Chapelle; after which he designs to proceed to Germany.
